About Us

We are **Masters&Wood**. We are a design oriented solid wood manufacturer situated within high end furniture market. Our position allows us to release the full measure of innovative energy and reach new heights in solid wood expression.

MS&WOOD facilities are located in the idyllic town of Fojnica, Bosnia and Herzegovina. Drawing from Fojnica's long woodworking tradition, our manufacturing facility is the place where innovative minds meet cutting edge technology. MS&WOOD is the place where classical carpentry techniques meet advanced 5 axis CNC machining technology.

We open our doors to knowledge exchange. This open mindset has led us to become a regional R&D centre of choice for designers who deliver progressive design solutions. We see knowledge exchange as the first step in our exciting journey whilst working hard to reach the new heights in solid wood expression.

MS&WOOD works with hardwood species such as beech, ash and oak as well as wild and American walnut. Each tree is proudly sourced from FSC (Forest Stewardship Council) Chain of Custody certified forests.

ALTER Chair

ALTER

The Alter chair is versatile. It is suitable for the rigours of commercial applications and is equally at home in an intimate setting. Triangulated legs lighten the product whilst retaining strength and solidity. Undulating backrest lines form a handle that is pleasant to the touch offering optimum seating comfort.

The seat can be upholstered in a variety of high quality fabrics and a broad colour palette in materials such as wool and leather. Alter is entirely manufactured in FSC certified solid woods including oak, ash and walnut varieties and is hand finished by skilled craftsmen. Its stackability makes the Alter chair ideal for spaces that require versatility.

V Table

ELLE *Collection*

ELLE DINING ROOM FURNITURE

Elle is a sophisticated beauty. This dining room furniture collection brings out the finest features of MS&WOOD's engineering and manufacturing and takes our environmental awareness to the next level.

Elle's sustainability lies in her balance of the aesthetic and the utilitarian. She features curved volumes yet her silhouettes remain simple. Elle takes the spotlight when being admired and reveals the interplay between her slopes and edges when seen from different viewpoints. However, Elle can remain in the background or even become a mere stage on which life plays out. Elle carries her role well in very different interiors or in one space as it changes over the years. Her pieces contain lasting formal and functional values that transcend time so as to be passed on and used by several generations.

All the pieces were developed through sculpting many scale and life-sized models in search of golden section proportions and perfect detailing. Computer 3D modeling was used only as a means of capturing the hand-made forms:

I closed my eyes and imagined a chair that personified beauty. I began to sketch, draft and model a chair whose form fully followed function. I moved on by taking away additional material and smoothing out the edges. I slowly arrived at a very slender chair that rationally used wood components. The chair was exceptionally comfortable. Sitting on its wooden seat felt like sitting on a padded one. Elle table followed the same concept adopting a more downplayed aesthetic in order to ensure complementarity with different chairs.

Elle is made up of a chair, table, bench and coffee tables. The chair is available in versions with or without armrests and with an upholstered or solid wood seat. Elle is at the very limit of what is possible in solid wood engineering. These pieces were cleverly planned to be visually and physically light. They rationally use wood components and the minimal amount of material whilst maintaining optimal structural strength. This quality is best demonstrated by the fact that the Elle chair impressively weighs 4.7 kilograms in ash.

Elle is manufactured by combining filigree-precision five axis CNC milling with classical carpentry techniques. All Elle pieces are carefully hand finished.

Elle is made exclusively of solid wood and is assembled using purely wood joinery. It is produced in ash, wild and American walnut and oak. The hardwoods are treated with natural or pigmented oil and wax finish. This gives the surface a silky yet naturally grained texture whilst creating a protective film to preserve the surface. Upholstered chair seats are made with the finest EU ecolabel wool fabric or leather.

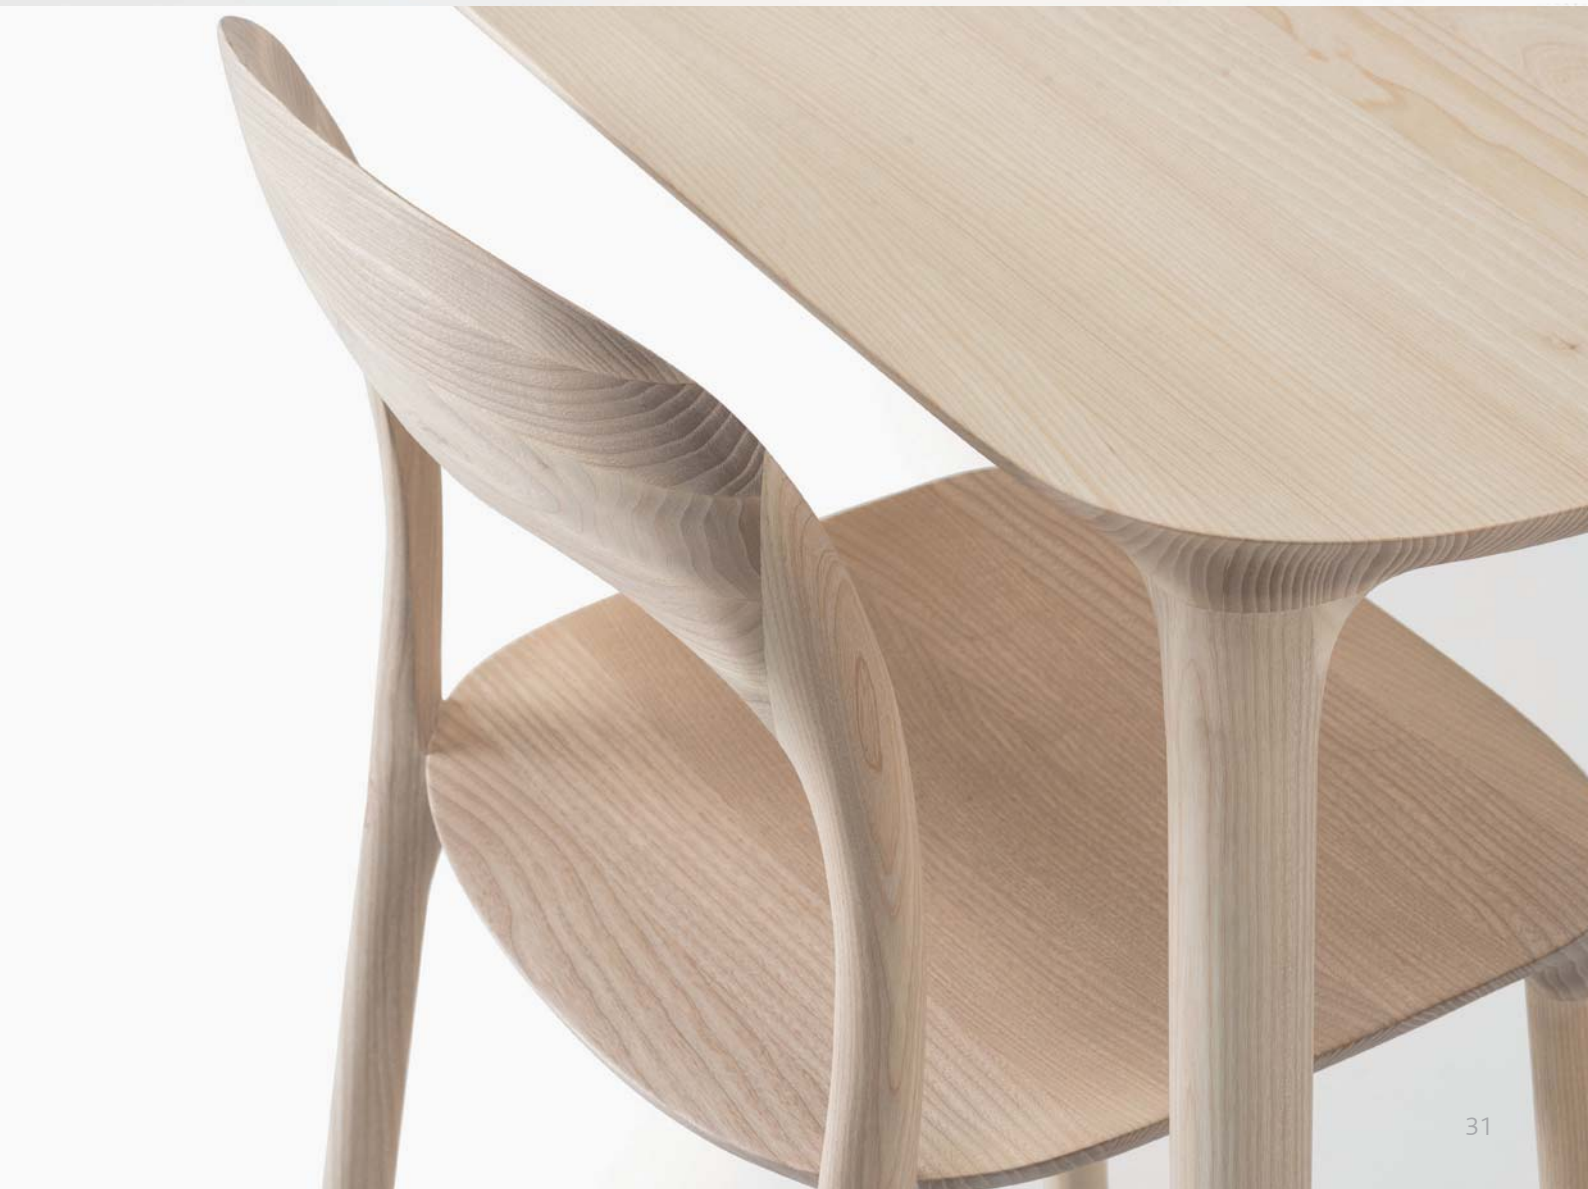

design Natasa Perkovic

PRIMUM *Collection*

Primum Collection is based on researching structural engineering forms that create high structural load bearing capacity.

The key focus in the development of the Primum Collection chair were ergonomics and comfort. The Primum chair is a piece with a wraparound backrest. The chair is well supported by robust legs that provide just enough material for integrated solid joints. These smoothly interconnect with the seat and thus create lines that build the chair's character.

As a result of our research we were able to reduce the table's solid wood construction to its core whilst maintaining durability. The table top and legs have elegant proportions that evenly spread out to the floor base points allowing maximum legroom and chair movement.

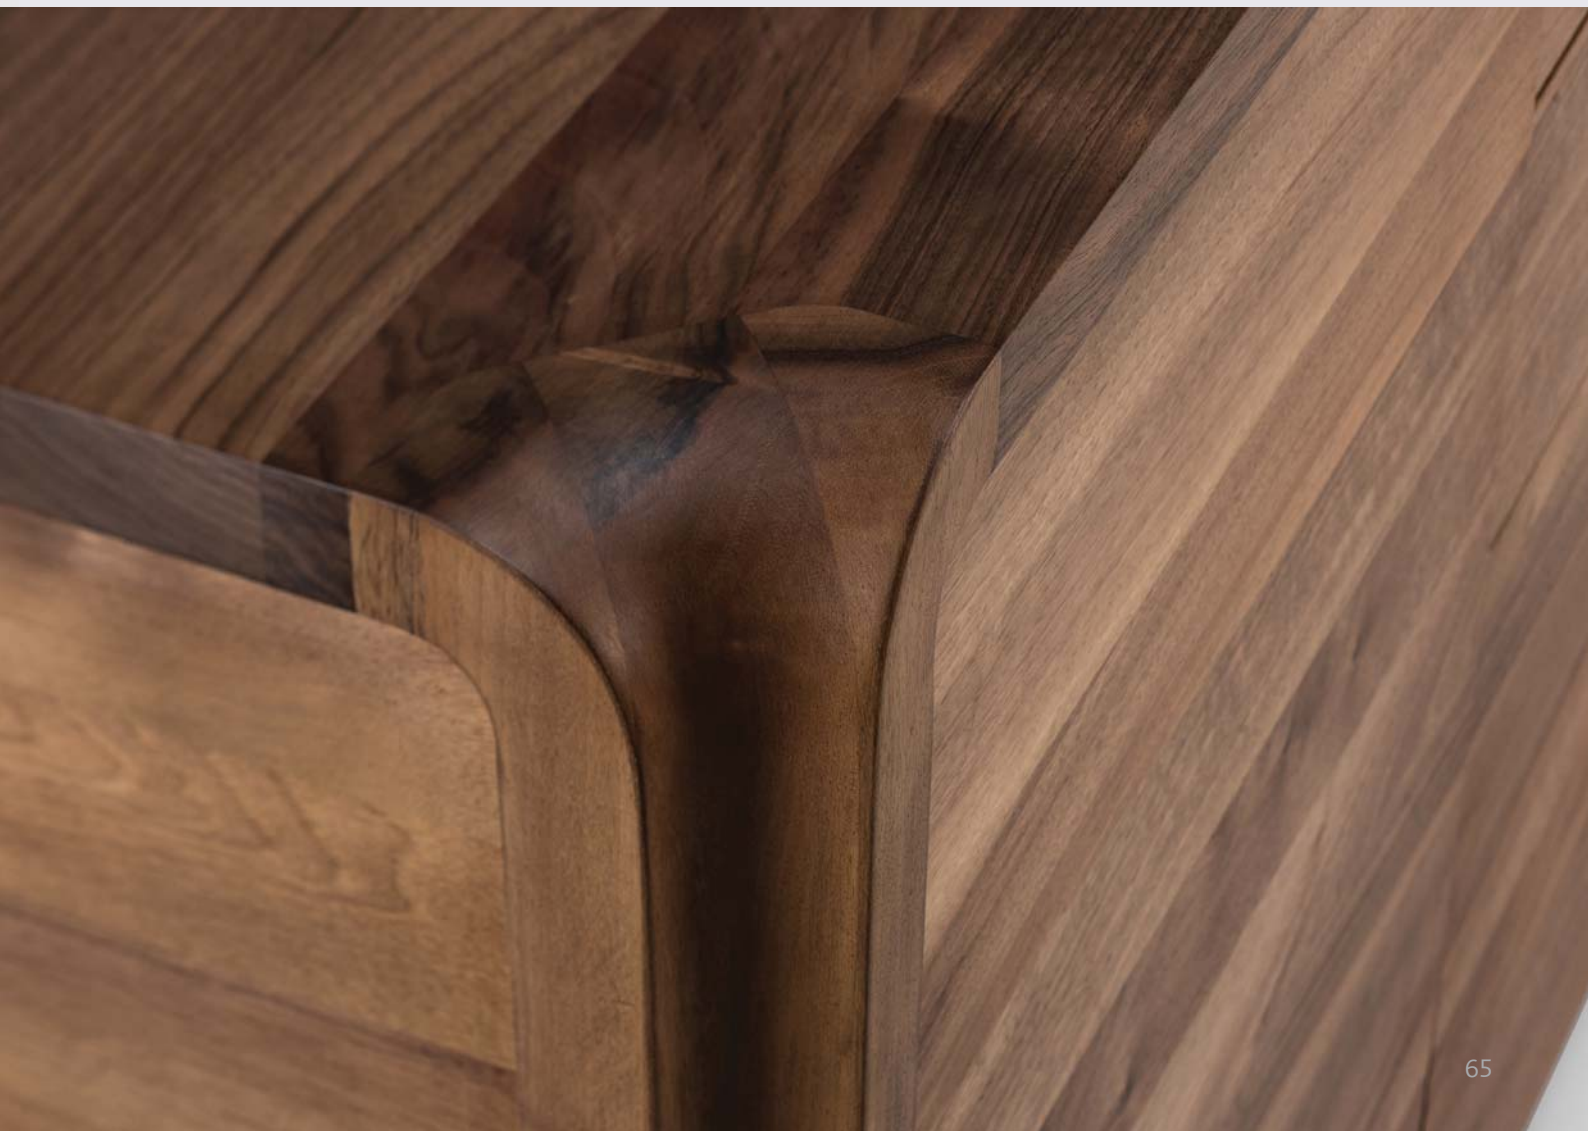

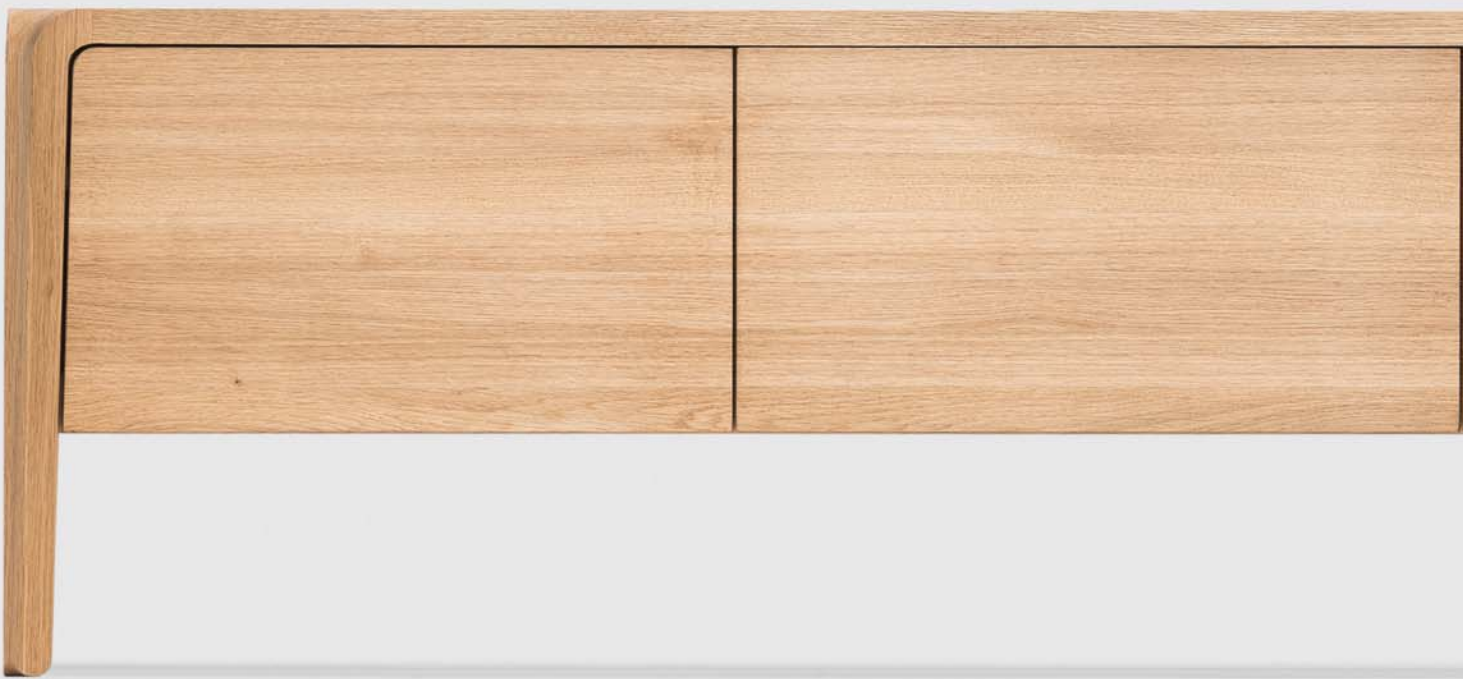

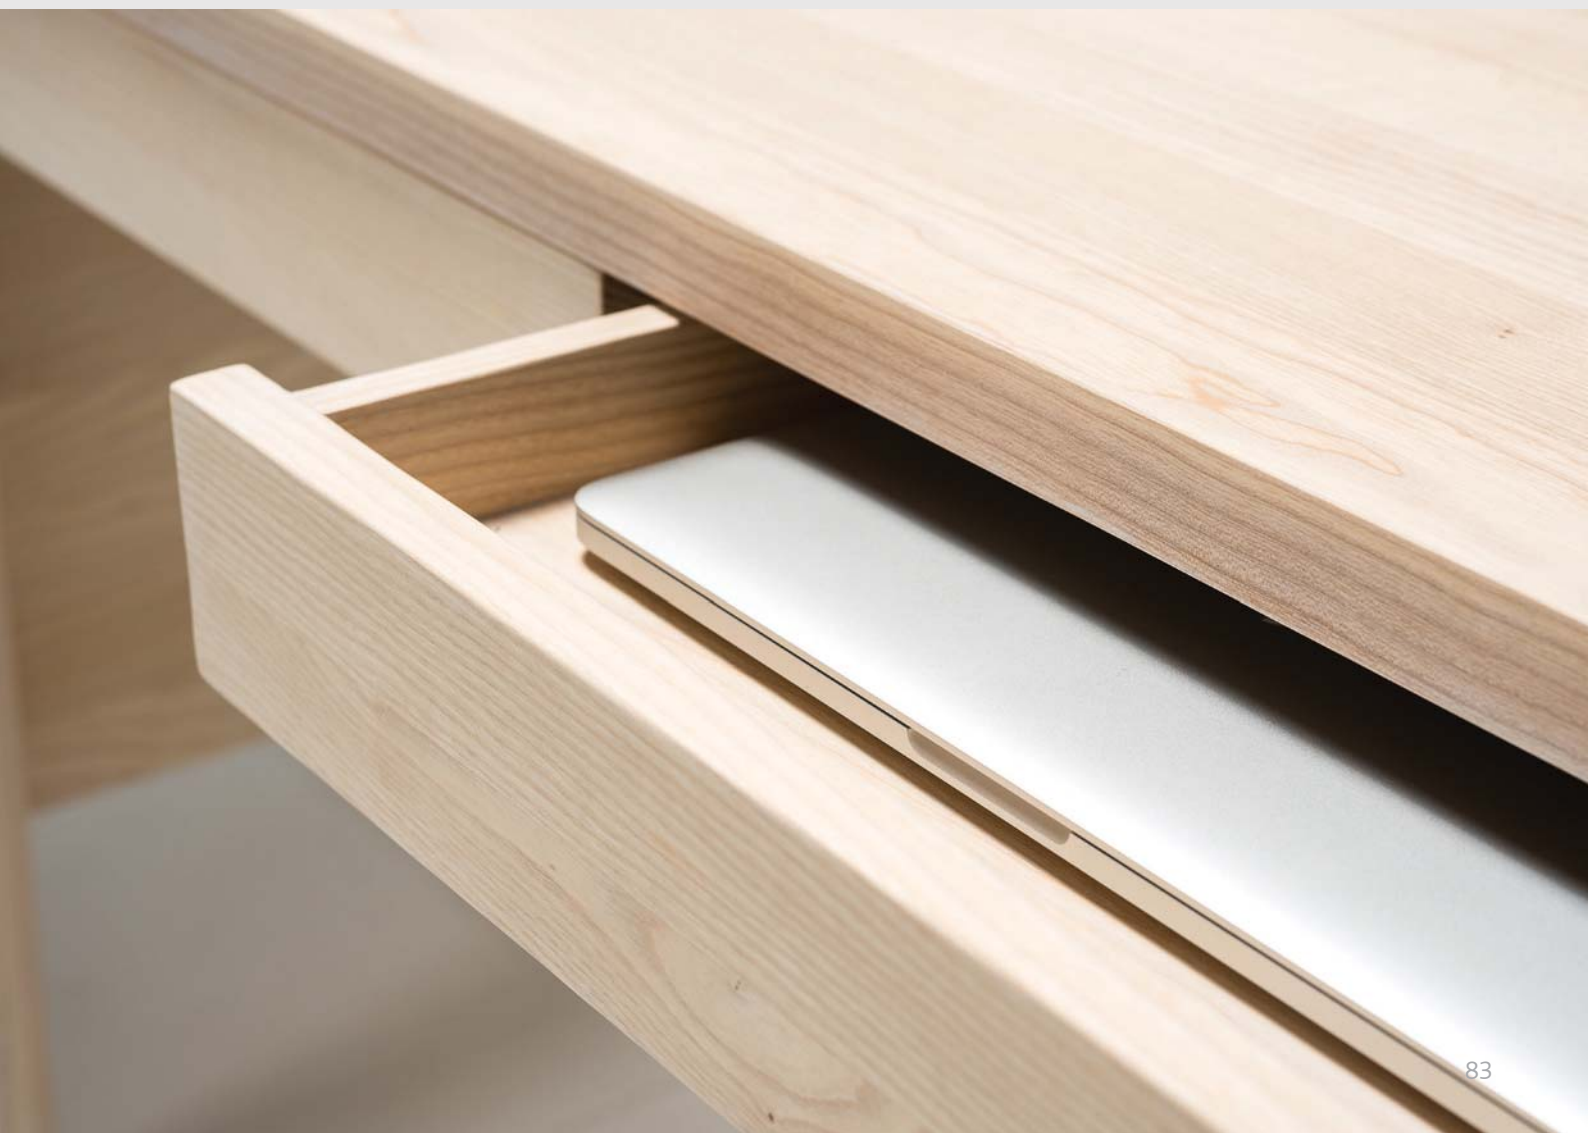

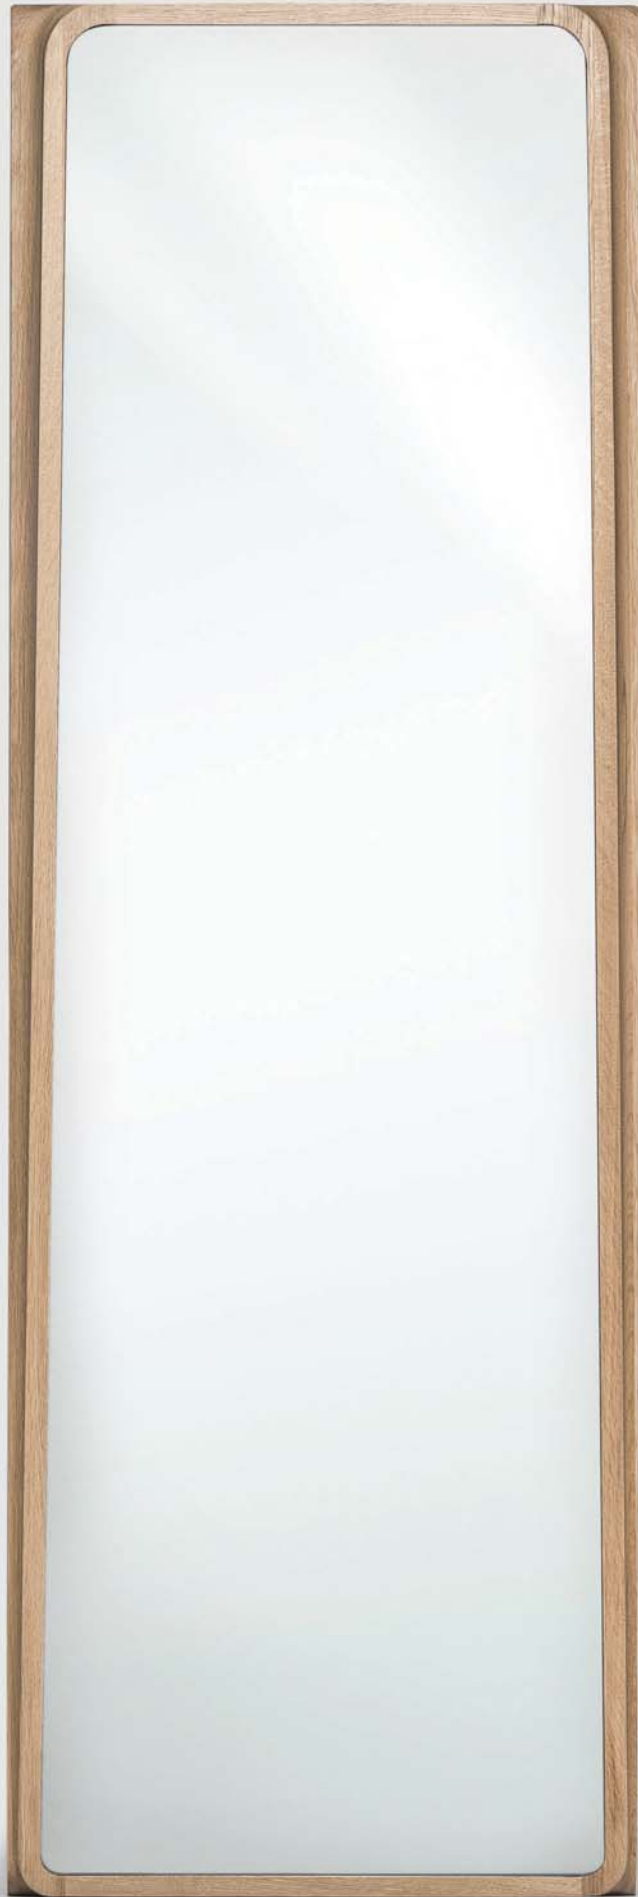

Nataša Perković is a product designer from Sarajevo, Bosnia and Herzegovina. She aims to fuse aesthetic value with innovation and commerce. This is Nataša's way of inspiring people to enjoy her design sensibilities for many years to come.

Nataša lectures at the Department of Product Design at the Academy of Fine Arts in Sarajevo. Currently on a semester's study leave, she operates from the Design Lab at the Kyoto Institute of Technology in Japan.

Primum chair, solid wood

Seat thickness 30 mm, front seat view 20 mm

Front leg thickness 20 mm

Back leg thickness 28 mm

Available in: oak, ash, walnut, American walnut

Available with mesh

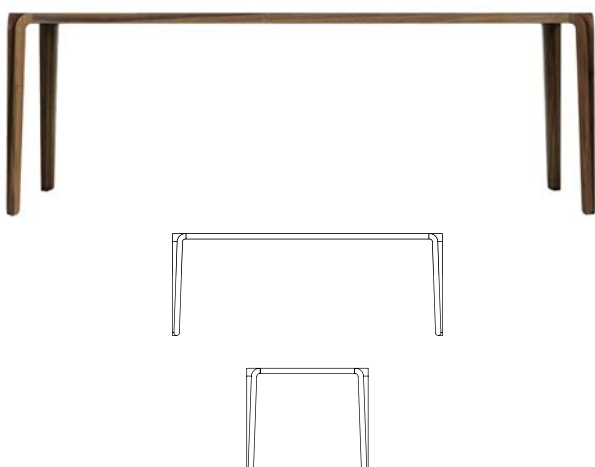

Dimensions (cm):

Length: 51

Width: 52

Height: 79

PRIMUM *Table*

Primum table, solid wood

Table top thickness 40 mm

Leg thickness 40 mm

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 220, 200, 180, 160, 140, 120, 80

Width: 100, 90, 80

Height: 76

PRIMUM Bench

Primum bench, solid wood

Board thickness 40 mm

Front view of the board 30 mm

Leg thickness 30 mm

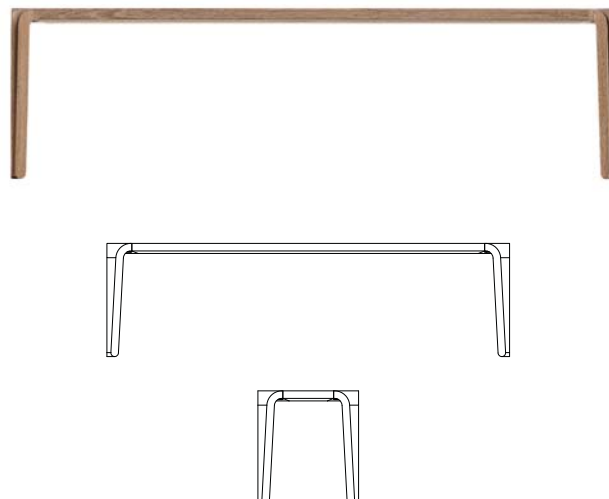

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 160, 140, 120, 100, 80, 60

Width: 40

Height: 45

PRIMUM Sideboard

Primum, sideboard, solid wood

Board thickness 30 mm

Leg thickness 30 mm

All drawers and doors with TIP ON

Opening system and soft closing

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 180, 120

Width: 44

Height: 90

PRIMUM Lowboard

Primum lowboard, solid wood

Board thickness 30 mm

Leg thickness 30 mm

All drawers and doors with TIP ON

When open, available space can be used for four shelves.

Ventilation opening at the back.

Simple cable management. Possible variations with drawers and doors and without drawers and doors

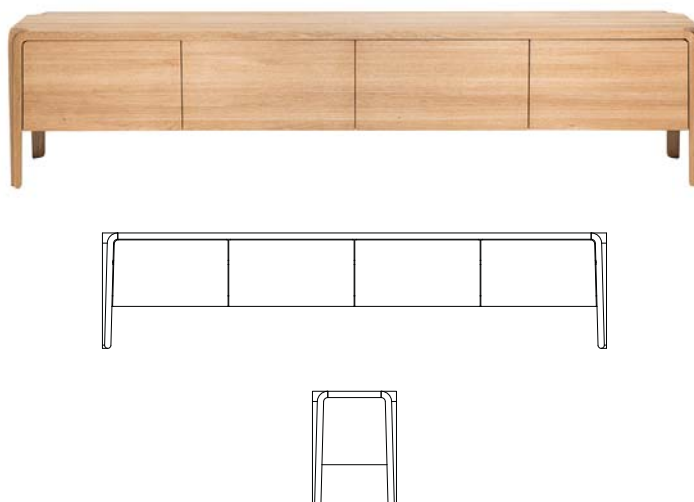

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

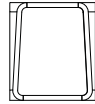

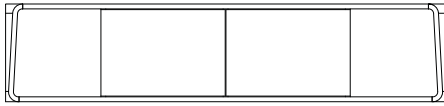

Length: 240, 200, 160

Width: 40

Height: 55

PRIMUM *Wall module*

Primum wall module, solid wood

Board thickness 20 mm

Leg thickness 20 mm

Two doors with TIP ON opening system
and soft closing system.

Two suspension rails included for setting in space.

Available in : oak, ash, walnut, American walnut

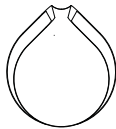

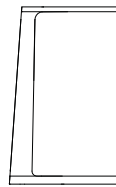

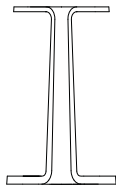

Dimensions (cm):

Length: 180, 160

Width: 35

Height: 40

PRIMUM *Oval side table*

Primum oval side table, solid wood

Board thickness 15 mm and 25 mm

Thickness in the lower part of the leg is
25 mm gradually reducing to 15 mm

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 38

Width: 34

Height: 55

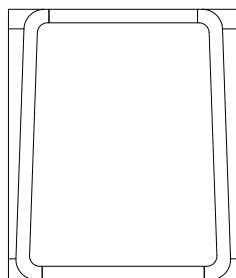

PRIMUM *Side table*

Primum side table, solid wood

Table top thickness 20 mm

Leg thickness 20mm

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 34

Width: 34

Height: 55, 40

PRIMUM Coffee tables

Primum coffee table, solid wood

Table top 30 mm

Front view of the table top 25 mm

Leg thickness 25 mm

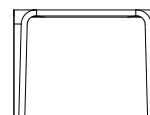

Available in: oak, ash, American walnut

Dimensions (cm):

Length: 120, 90, 60

Width: 120, 90, 60

Height: 45, 35

PRIMUM Working Desk

Primum working desk, solid wood

Desk top thickness 30mm

Leg thickness 30mm

Two drawers with TIP ON opening system and soft closing system

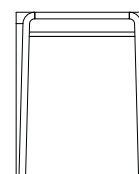

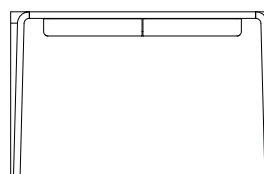

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

Length: 140, 120, 100

Width: 60

Height: 76

PRIMUM Drawer Unit

Primum drawer unit, solid wood

Board thickness 30 mm

Leg thickness 30 mm

Four drawers with TIP ON opening system and soft closing system

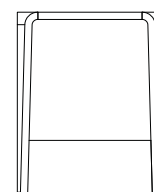

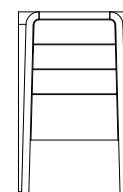

Available in: oak, ash, walnut, American walnut

Dimensions (cm):

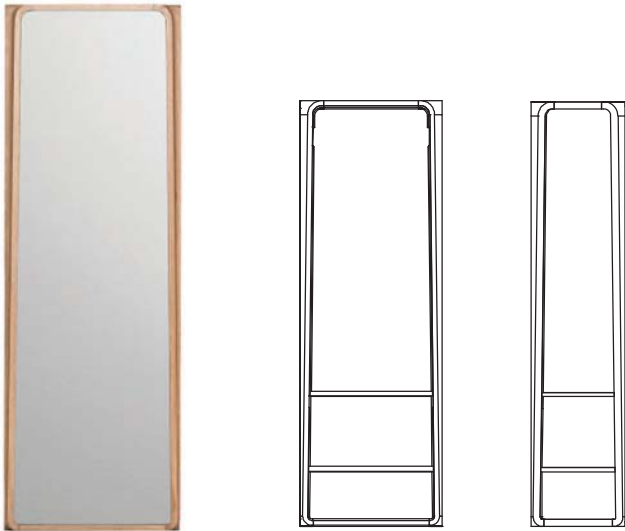

Length: 46

Width: 60

Height: 76

PRIMUM *Hallway unit*

Primum, hallway unit, solid wood

Board thickness 30mm

Leg thickness 30mm

Mirror at the front of the hanger,
space for clothes and two shelves.

Safety attachment and fixing

Available in: oak, ash, American walnut, walnut

Dimensions (cm):

Length: 60

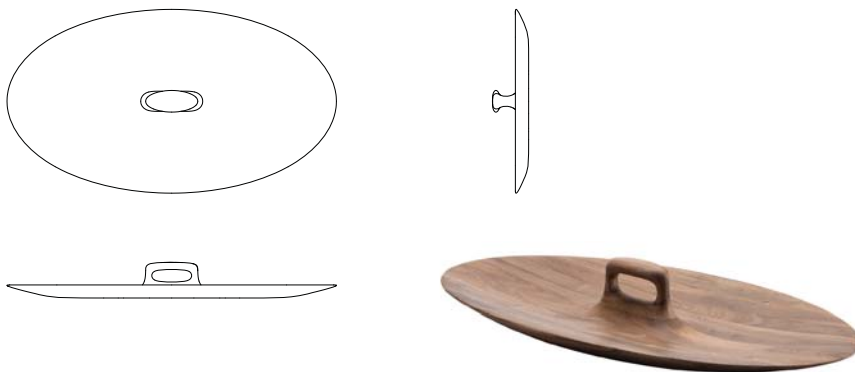

Width: 40

Height: 200

PRIMUM *Serving board*

Primum, serving board - solid wood

Available in: oak, ash, American walnut, walnut

Dimensions (cm):

Length: 60, 79, 102

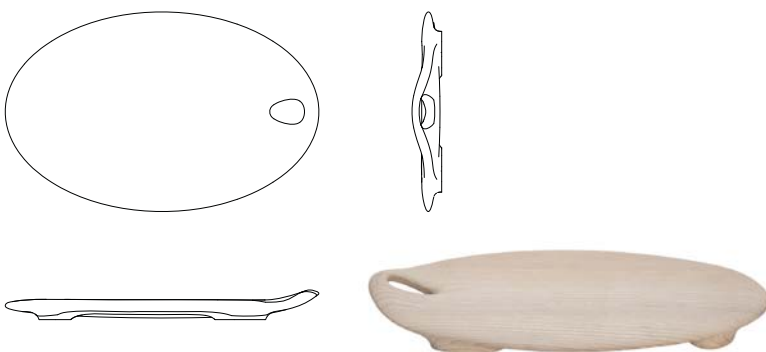

Width: 34, 45, 58

Height: 9, 15

NOTA *Chopping Board*

Nota, Chopping Board - solid wood

Available in: oak, ash, American walnut, walnut

Dimensions (cm):

Length: 44, 35

Width: 28, 22

Height: 3
